News: KEMAT awarded BV ISO 9001:2015 Quality Management Certification

Brussels, Belgium – 6 October 2017. KEMAT the leading European supplier of polybutenes and related products, has announced that they have been awarded the ISO 9001:2015 standard following a recent surveillance audit.

KEMAT has been awarded BV ISO 9001:2015 Quality Management Certification, their Scope of Supply: procurement, logistics management, sales, compliance and quality assurance. The ISO 9001:2015 is the ultimate practice management framework and supports KEMAT's commitment to providing a high level of customer satisfaction. To fulfil the rigours of an independent external audit, the company had to demonstrate having an effective quality management system in operation.

After receiving confirmation of the certification, KEMAT's Managing Director Simon Mason said, "We are delighted that our continued hard work has been recognised. This certification demonstrates that we are sincere about quality and will always strive to deliver a service of the highest calibre possible to our customers. Our certificate is available to download in four languages on our website."

The advantage of using suppliers accredited with ISO 9001:2015 is that it helps to ensure consistent and good quality products and services.

About KEMAT

KEMAT is a privately held company founded in 1989, operating globally with an expanding portfolio. It is the largest independent distributor of polyisobutylenes and related products in the EMEA region.

Having built up an expertise in the supply of additives to the lubricants industry, KEMAT has expanded over the years to supply a wide range of additives to a diverse customer base across a multitude of different industry segments.

Unparalleled experience and insights into PIB markets and applications. Supplier relationships of 28 years.

Centralised distribution centre in the heart of Europe with readily available stock across all grades. KEMAT has a wide range of high quality PIBs, bulk tank containers, IBCs and drum packaging as well as a drumming facility.

KEMAT continues to build its strength and reputation on providing timely deliveries of high quality products at competitive prices and giving personal attention to both supplier and customer requirements.
