Press Release

9 November 2026

Appointment: George Vilageliu

Brussels, Belgium – 9 November 2026. The teams at KEMITO and KEMAT offer George Vilageliu a warm welcome, who joins in the role of Operations Specialist, responsible for managing Kemito operations. Kemat is a full-service provider offering distribution and logistics solutions. Kemat offers repacking as well as tailor-made packing, flexible supply options, delivering polybutenes and related products in varying quantities throughout Europe, Middle East, and Africa, as well as comprehensive solutions for all ISO tank needs and economical logistics.

George remarked: "I'm proud to be part of Kemito as an Operations Specialist, contributing to the reliable operations and strong customer relationships.

I hold a bachelor's degree in Finance and Accounting, and have experience in logistics coordination as well as managing projects. This combination helps me understand both the operational detail and the wider business priorities behind each decision.

Working closely with our customers, warehouse teams and transport partners, I coordinate daily operations, anticipate potential issues, and take ownership of resolving them. I particularly enjoy understanding customers' needs and finding practical ways to improve how we work, from clearer communication to more efficient processes.

Originally from Barcelona, I moved to the Netherlands to develop my career in an international environment. I value working with colleagues who share their knowledge, challenge ideas constructively and take responsibility for achieving results together. Outside work, I enjoy playing sports and spending time with family and friends.

My ambition is to help Kemito achieve its business objectives by strengthening operational performance and building lasting customer confidence. I'm committed to contributing ideas, following them through and working with the team to support the company's continued growth."

Simon Mason, Managing Director: "I am delighted to officially welcome our new Operations Specialist to the Kemat Team! In this George will be working closely with our supply chain, logistics, and sales teams to ensure our chemical products and distribution channels continue to run seamlessly.

We are excited to see the impact of their experience on our day-to-day efficiency and customer service."
